

## **Finnish Young Statisticians Workshop 2019 November 19th**

The Finnish Young Statisticians Workshop (FYSW2019) is a networking event for doctoral students. This year the event is organized by the Finnish Society of Biostatistics in collaboration with the Finnish Statistical Society.

The meeting provides an excellent opportunity for academically young statisticians to present their results and meet their peers. In this event all of the speakers are doctoral students from different Finnish universities. All registered doctoral students are guaranteed the opportunity to speak in the workshop. Furthermore, this workshop is a fantastic environment to practice public speaking for future conferences.

Note that you are not required to have any prior publications or scientific results to attend this workshop. We encourage fresh doctoral students to present ideas or general outlines of your planned dissertation.

The workshop will be held in city centre campus of Tampere University on Tuesday 19th of November 2019. The room is 1029 in Pinni B (located in the Faculty of Natural Sciences), street address Kanslerinrinne 1 (link to the campus map: <https://www.tuni.fi/en/about-us/tampere-university/campuses/central-campus>). The presentations will be between 12.15 and 16.00. After the presentations, there will be some social activity with some food provided for the attendees.

The workshop is free of charge and everyone interested is welcome. The registration to the workshop is done via email and the deadline is **Tuesday 12th of November**. Send an email to **essi.syrjala@tuni.fi** and set "FYSW2019" as the subject of the email. The doctoral students who wish to give a presentation, please state that in the registration email and provide a title for your presentation. We ask all attendees to register, even those not presenting, and give their current academic affiliation and position. Additionally, please specify if you will join the social activity, and if you do, any allergies or special diet requirements.

If you have further questions, please email Essi Syrjälä ([essi.syrjala@tuni.fi](mailto:essi.syrjala@tuni.fi)).
